HOMECOMING COURT: Queen Chris Kowalski surrounded by her attendants, Nancy Herzberg, Lynda Huff, Diane Weidenmiller, Ursula Bujak.

WHICH MEANING FITS YOU?

It isn't often that one word in the English language can have so many different meanings for so many different people. The word Homecoming fits this description, because to each of us it has its own special meaning.

To the student Homecoming means the construction of a float, the crowning of a queen, the playing of a football game on a crisp autumn night, and that special date at the Homecoming Ball.

To the faculty the word brings mixed emotions. In the preparation of Homecoming activities many a well laid lesson plan is interrupted. But when the end product is on display, there isn't a teacher in the crowd that isn't rewarded by the thought of knowing his interrupted class sessions contributed to this colorful event.

To the parents Homecoming brings the joy of seeing their daughter brimming over with excitement following that special invitation to the dance; or it may bring from their son a request to use the family car complete with funds to cover the event.

Turn the word around and you have its meaning for the alumni . . . a time for coming home. It is a time to renew old friendships and to linger a moment in the past. It is a time to once again stand when the school song is played.

. . . which meaning fits you?

In Time of Need . . . They were there

"When the going gets tough, the tough get going," could very well be the motto of Mr. Cuthbertson and Mr. Quick, who took over their administrative positions at a time of need.

Both men proved capable of handling the duties that accompany the two highest positions in the building. During their stay in the office both wore two hats; Mr. Cuthbertson served as principal and athletic director while Mr. Quick carried the duties of assistant principal and head football coach.

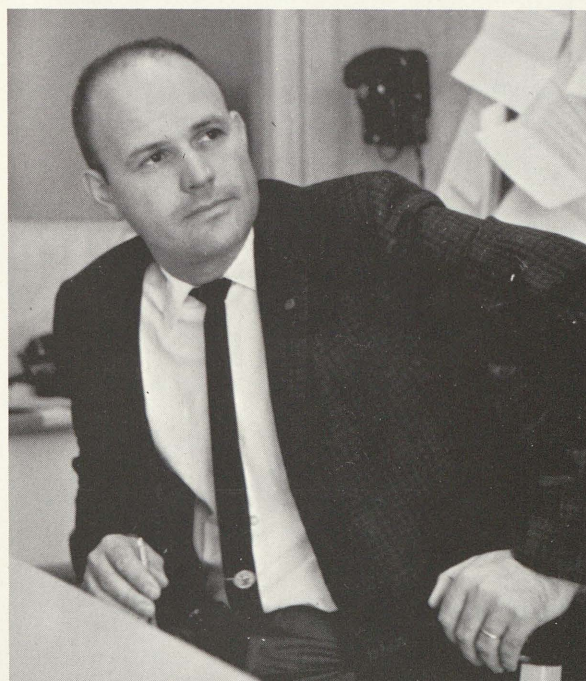

Thanks to Mr. "C" and Coach Quick, Buena Vista High School was able to carry on in a time when leadership was needed.

*A Place Where Today's
Problems and Tomorrow's
Challenges are Met*

Mr. Metiva, our guidance counselor, guides us through today's problems and readies us for tomorrow's challenges.

You can always find a friendly smile and a helping hand.

The students appreciate the fine counseling help he has given us and we hope to have more of his fine counseling in the future.

Mr. Metiva looks through a catalogue to help a student find the answer to his problems.

Mrs. Dulac schedules students for counseling help.

Their Services are in Constant Need

Mrs. Baber keeps our school clean and pleasant to be in.

The cooks, Mrs. Carrigan, Mrs. Simon, Mrs. Mueller, and Mrs. Nichols, prepare our lunch.

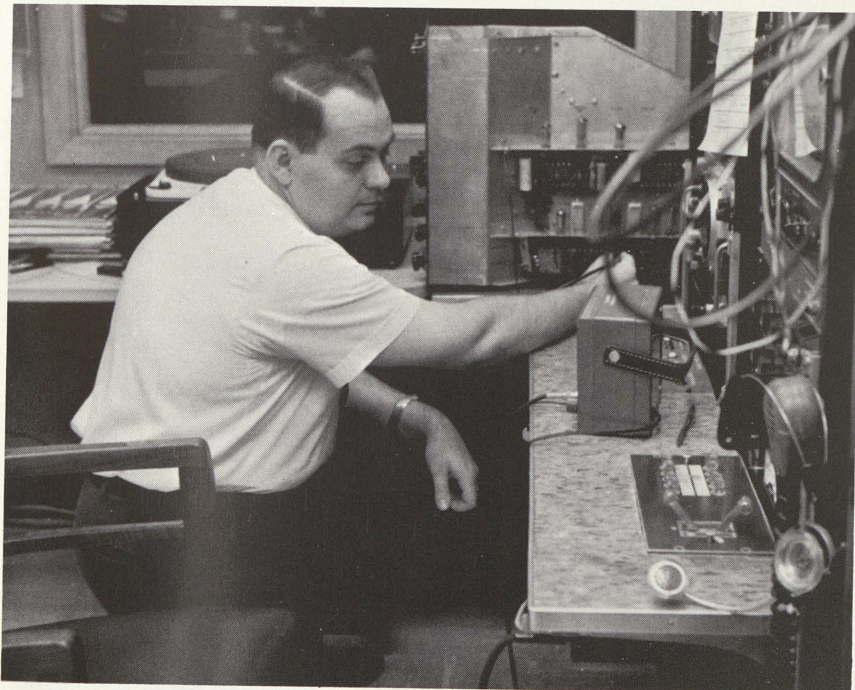

Mrs. Chapman and Mrs. Prueter are also busy with preparations for lunch.

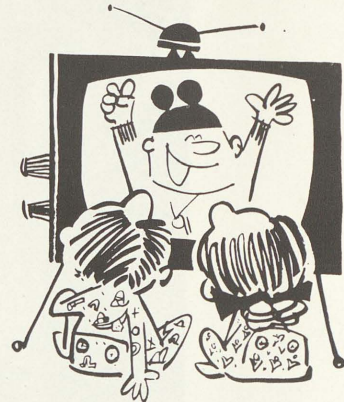

Mr. Eichendorf tends to repairs and keeps our school running smoothly.

*Their Unique
Work Furthers
Our Education.*

Mr. O'Hare readies the video tape machine to tape a telecast.

Checking the controls in preparation for a telecast is Mr. Wuepper, the ETV Director.

Miss Lentner supplies the art-work for our telecasts.

Seniors

Class of 1967

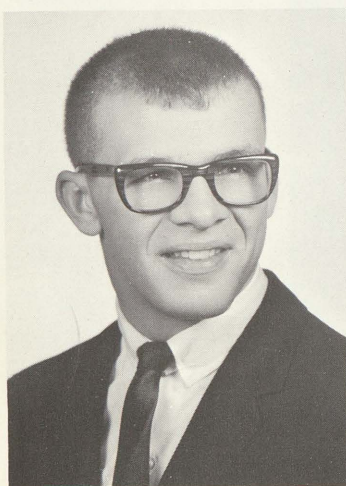

The class of 1967 worked together to conduct different activities to raise money for our Senior Prom and Banquet.

We worked under the leadership of (left to right) Connie Hetzner — Treasurer, Chris Kowalski — Vice-President, Mark Johnson — President, and Sue Franek — Secretary.

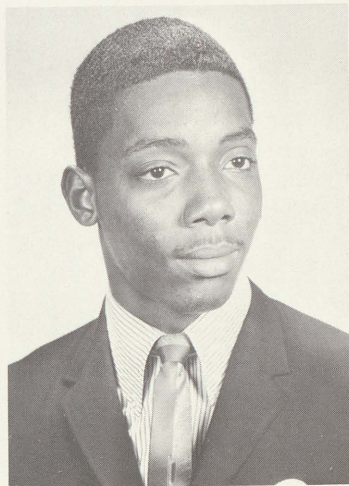

Our money making projects included the sock sale, rummage sale, and our candy sale.

During the past year we were fortunate to have Marta Palmgren as our foreign exchange student from Sweden.

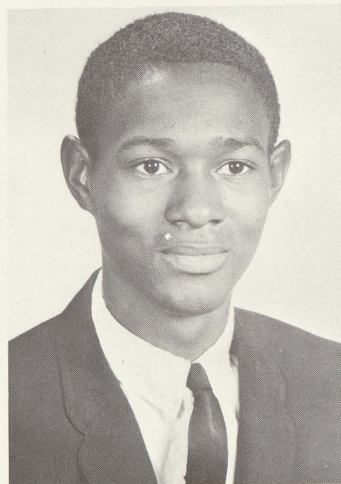

Senior class advisor is Mr. James Tuck.

AUTHORIZED DEALER

Armco Steel Buildings

Manufactured by Metal Products Division, Armco Steel Corporation, Middletown, Ohio,
and Armco Drainage & Metal Products of Canada Ltd., Guelph, Ontario

ARMCO BUILDINGS

have all the
features you want

They attract customers

—because they're colorful.

Their durability is proved by tests

—actual exposure in test installations and accelerated exposure tests —in accordance with Method 6152 of Federal Test Method 141, Enclosed Arc Apparatus (Weather-Ometer)—show Armco acrylic enamel finishes, in normal exposure, will not develop excessive color

change for 10 years and will not blister, peel, crack, flake, check or chip for 15 years.

They're available in a wide variety of sizes

—and when you outgrow your building, it's easy to remove an endwall, add framing and panels, replace the endwall and you have a larger building to fit your needs.

They're quickly planned, erected and finished

—because we can supply complete construction service.

They're efficient

—because they can provide thousands of square feet of column-free work space.

As a matter of fact, we offer a complete building service . . . from site preparation, design assistance and even financing. Just call us.
